

ICT

Portland Bay School supports one to one iPads for each student through our BYOD program. With a strong focus on ICT the school has a technician 2.5 days a week to support staff in optimal student learning in the area of ICT.

Non-verbal students at Portland Bay School use iPads as communication devices and have access to Speech Therapists who are up to date with the latest communication devices and strategies.

Each class room has an interactive whiteboards and Apple TV that aide teachers in engaging students with individual needs in their learning. By accessing the latest software available students are given the opportunity to excel and improve their outcomes in literacy and numeracy.
