

Junior School

Our junior school is divided into two classrooms. The school targets the individual needs of each student with a focus on literacy and numeracy while also incorporating communication and social skills.

The Junior School provides a positive, caring and non-threatening environment that nurtures children through their early years of schooling.

Our low staff/student ratio enables close knowledge of each child. Together with parents, we strive for each individual to reach their full potential.

In keeping with every child's Individual Learning Plan, we cater for children's needs in perceptual motor, sensory motor, speech, physiotherapy, occupational therapy and swimming.

Students are encouraged to join in with a range of programs. These are designed to challenge and extend each individual student.

Programs we offer include-

- Swimming
- Gymnastics
- Bike Education
- Sailing
- Cooking
- Community Access
- Horse Riding
- ICT program

Our purpose is to provide a learning environment that best suits each child and lays the foundation that enables them to continue to learn at their own rate and therefore reach their individual goals.
