

Senior/Transition Group

The programs in the senior/transition area of the school focus on providing older students in the school with the appropriate knowledge and skills in order to encourage and enhance their independence in the community after they leave school.

The academic program centres around developing and increasing literacy, numeracy, social, behavioural and communication skills

We have a Work Experience coordinator who liaises with businesses and other community organisations to enable students to attend work experience.

We also encourage students to participate in volunteering within the community.

Possible post school options are looked at on an individual basis in the student's last year at Portland Bay School.

Students have the opportunity to participate in the following programs-

- Home Economics – Budgeting, planning and cooking meals.
- Bike education
- Work Experience
- Motorheads
- Sailing
- Swimming
- ICT
- Outdoor education
- School Camps
