

Work Experience and Student Pathway

Portland Bay School offers a work experience and transition program for all students in the senior school. Students develop a career action plan and learn 'work ready' work schools to support their journey beyond school.

A feature of the program is the supported work experience program where students complete work experience with local businesses and community organisations. Students gain valuable experience and work related skills such as working safely, communication, time management, work ethic and reliability.

The Portland Bay School appreciates the support of local businesses within the Portland Community.
